

Welcome to Miracle Restaurant

Asian eating style is a sharing one, signifying their belief that food is an important part of social life.

As Confucius said, "To share your happiness among others is greater than to be happy alone."

To this end, our dishes have been prepared to be shared amongst the diners. As for how much food to serve, have a number of dishes roughly equal to the number of people that will be eating.

The idea is to choose a dish which is different to the others in your group. This dish will be placed in the centre of the table. Rice is ordered separately. Now you have a variety of dishes to eat from.

The Chopsticks – you need a bit of skill to eat with, but it is a fun change of pace. Try them first as practice definitely makes perfect! If you are not comfortable with using them, however, there are knives and forks available.

*We trust you will enjoy
your time with us*

Starters
